- 日時：12月18日（水）15:00～16:00
- 場所：科学分析支援センター 3階会議室

● Abstract

Tea is one of the beverages, but unlike other beverages, it has tea culture, tea etiquette, tea ceremony and Dado(Chado); it has 4700 years history. so it has a significant amount of cultural and academic contents. Teaics is the studies on tea, its definition includes tea scrub, tea in cup, tea in caddy, tea culture, tea science, and is a logical and objective knowledge system about them.

Teaics was published in 2004 at the International Conference on O'cha Science and Culture at Shizuoka in Japan. The reason for developing Teaics is to organize the facts, informations, knowledges from enormous amount of tea contents and build up Theory, Studies, Science, and then to make a 1:1 collaboration with other studies.
